

## JOIN US

*Since we make fulfilment, development and rewarding the skills of our employees a priority, Mobility is committed alongside you to a successful employee experience.*

### Our commitments for a successful employee experience

- ✓ We offer you support from your very first day with **orientation and training** built for each business line.
- ✓ Looking to **boost your skill** ? Thanks to the [l'Académie VINCI Energies](#), as well as the use of e-learning platforms (MOOC, SPOC, etc.) and your Personal Training Account, you are in control of your career development.
- ✓ We support our employees in their **solidarity commitment** projects via the [Fondation VINCI pour la cité](#).
- ✓ Take an active role in innovation by taking part in the Innovation & Outlook Committee or business clubs

**Our being reason**  
 Mobility, a subsidiary of VINCI Energies, aims to design and implement systems dedicated to the development of these infrastructures worldwide.

[Read more](#)

**Our job offers**  
 Just like our company, your career evolves over time. We firmly believe that the success of our projects is tied to the diversity of the people forming our teams.

#### Want a change of scenery ?

Enjoy mobility **within the VINCI Group**

If you speak several languages and are open to travel, become our ambassador outside France (Mobility has increased its expatriated workforce tenfold in 2 years).

### Mobility, talent developer

We offer specific work experience for recent graduates: **the Incubator** !

- ✓ Who? Master's graduates,
- ✓ How long? From 12 to 36 months depending on profiles and business lines.
- ✓ How? With an open-ended contract, you will join a course filled with immersion in the field and within other departments of the company, training dedicated to VE tools as well as professional and personal development, and participation in a variety of working groups within Mobility and the VINCI Energies Group.

A rewarding experience with daily access to an in-house mentor to help you **develop, innovate and grow !**

Our teams regularly participate in school relations events for sustainable recruitment (with open-ended contract opportunities as a bonus) of our future trainees and work-study students: partnerships with [Centrale Lyon](#), [ENSE3](#), [INSA](#), [Centrale Supélec](#)... among others.

*Mobility's "project mode" is highly effective. It involves agile organisation and optimum configuration of resources. I love my role as a PMO because it's dedicated to spreading this way of working.*

**MARIYEM CHOUKRAD**

Project Management Officer

**Project Manager, Technical Director, Buyer, Project Manager Officer...**
