

## ZERO ACCIDENT OBJECTIVE

*The continuous improvement of our performance when it comes to human health and safety and environmental protection is a priority. It is a daily management effort : all levels of management share objectives set on an annual basis and develop a preventive attitude.*

[Configure cookies](#)

All of our initiatives are part of the [SAFETY EXCELLENCE at VINCI Energies and risk perception are at the heart of daily routines](#). We rely on the risk perception index (RPI) to identify the level of prevention within the company, the objective of which is to achieve the best score. It is a motivating and inclusive initiative which encourages employees to participate and identify risks early on.

- ✓ 1/3 of employees educated about first aid
- ✓ 15 Minutes of Safety meetings held by management at all worksites.
- ✓ 1 safety point to start each meeting and 1 annual "Worksite Day" to present key figures, objectives and required improvements

### A corporate citizen

We don't design infrastructure
